

➤ PYRO

R-PYR

## HIGH-DEXTERITY HEAT RESISTANCE

Pyro delivers excellent heat protection, yet still gives you Ironclad's legendary dexterity and fit. Perfect for wrenching in a hot engine bay or backyard grilling, this glove boasts a double coated palm for superior durability after repeated hot uses. The textured neoprene palm coating provides excellent wet and dry grip, giving you total confidence to handle your hottest work. Not rated for fire resistance. Not fire or flame proof.
