

STICK WELDER

WSTK

HEAT RESISTANCE WITH DEXTERITY

Designed for full-time welders, Ironclad's welding glove line up is designed for maximum durability and comfort. The Stick Welder glove is built for heavy-duty stick welding with premium elk hide split back of hand & palm, welted seams with aramid stitching, and a 10" full leather cuff for maximum heat and splatter resistance. Lined with cotton for improved heat resistance and comfort, this glove is built to last.
